Northern Lights Centre®

“Unbelievable Sights of the Northern Lights. This centre gave us an insight into the making of the Northern Lights. I'd love to see this show again and again!”

– Abbotsford, Canada

Saw the Northern Lights!

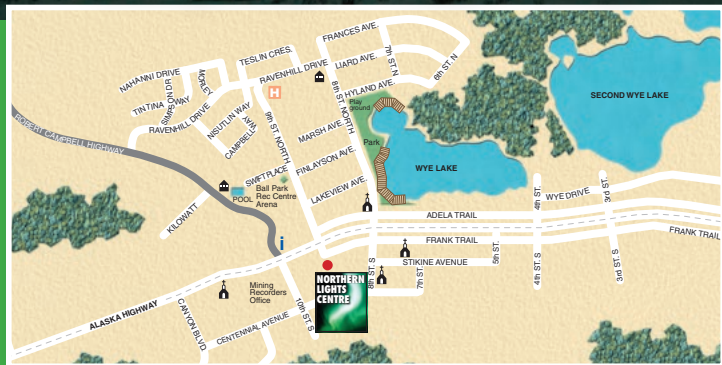

As we headed home from a month in Canada and Alaska without having seen the Northern Lights (too tired to stay up that late), we decided to go to the Northern Lights Centre to watch the show and that way could SAY we saw them! It was a good idea.

We highly recommend it!

– Crescent City, California
