# SKAGWAY AND HAINES, ALASKA

**Bring your camera, as photo opportunities abound!**

**World Exclusive!**

**Meet Banff, the world's only tame wolverine!**

If you think you've seen wild animals in the care of people already, think again! This is NOT a zoo! Rather, it is a private, family-run nature preserve, designed with a unique personal touch from a lifetime of working with Alaska's beautiful, fierce, loving, and playful wild animals.

Some of the animals, such as "Kitty" the grizzly, were Alaskan orphans as babies, and then hand raised by humans. **The result? Come and see!**

**Groomed trail; perfect for young and old alike!**
